

March 12, 1952

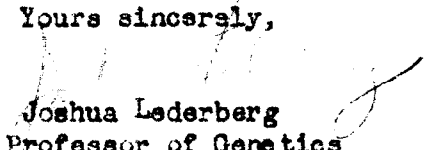

Dr. B. A. Waisbren  
208 E. Wisconsin  
Milwaukee 2.

Dear Dr. Waisbren:

We shall look for you this Saturday afternoon. I expect to be in my laboratory the early part of the afternoon. If you arrive after I have left, Miss Ethelyn Lively who has been directly responsible for our cell pedigree experiments will be glad to accommodate you.

Our quarters are off Room 200, Genetics Building. This is on the Agriculture campus, North of University Avenue, about the 1400 Block.

Yours sincerely,

  
Joshua Lederberg  
Associate Professor of Genetics
